3/4" x 5 1/4" x RL 3'-7'

INDOTEAK DECKING PLANKS

For hundreds of years teak has proven to be the ultimate water-resistant wood. Ours is created from 100% reclaimed teak, saved from centuries old buildings and given new life as our luxury decking. World renowned for its durability and natural resistance to decay, our reclaimed teak will perform admirably with little or no maintenance. Leave it to naturally weather to a silvery grey patina or oil yearly to preserve the rich golden brown hues. Our decking is also perfect for indoor applications like showers, saunas or any wet-use projects.

Source:

Vintage buildings slated for demolition in Southeast Asia.
